ELECTRONIC TIMER FOR CARTS

Model# DS-TIMER

Dell SKU# A2954779

- * A simple-to-use electronic timer that alternates power to each power strip inside a notebook or netbook cart at 15 minute intervals, preventing the risk of overloading circuits in large carts
- * Sealed and pre-set so it is tamper proof
- * Provides two outlets marked “always on” for peripherals that need constant un-timed power
- * Can be installed inside or outside any cart
- * Equipped with overload protection and noise filtration
- * Provided with mounting hardware and two removable brackets
- * Lighted on/off switch
- * Dimensions: 7"W (8 5/8" with mounting brackets) x 6 1/8"D x 1 3/4"H
- * Constructed of durable 20 gauge steel
- * 15 foot heavy duty power cord
- * Input voltage: 120 volts AC – 60 Hz
- * Load output voltage: 120 volts AC – 60 Hz
- * Load output wattage: 1440 watts
- * Maximum output current: 12 amps
- * Tested to all applicable safety standards (ETL listed)
