Dell 75 4K Interactive Touch Monitor – C7520QT

Reviewers' Guide

From the World's # 1 monitor brand*

Dell 75 4K Interactive Touch Monitor – C7520QT
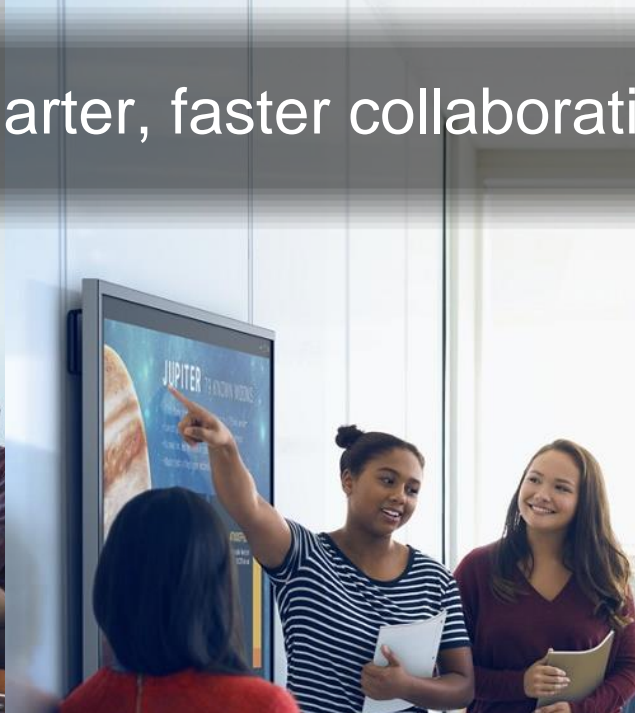

Smarter, faster
collaboration

Increase productivity with real-time collaboration on the **Dell 75 4K Interactive Touch Monitor (C7520QT).** 20-point multi-touch InGlass™ capability enable multiple users to interact with the screen simultaneously, where they can write or draw with virtually zero lag. Plus, exclusive Dell Screen Drop, the world's first accessibility feature, help enable collaboration for all by improving reachability for users working from different heights.

Smarter, faster collaboration

Seamless collaboration

- Up to 20pts of touch via touch or stylus

- Annotate and edit documents with virtually zero lag

- See brilliant, detailed images in 4K resolution from virtually anywhere in the room, thanks for IPS technology

Smarter Design

- Exclusive Dell Screen Drop accessibility feature

- Software & hardware agnostic

- OptiPlex Micro PC integration option

- Stay organized while multitasking with Dell Easy Arrange

Faster Experiences

- Connect quickly and present from almost any source (wide range of ports)

- RS232, RJ45 and HDMI CEC connectivity enable to manage the display remotely

The future of collaboration

Experience natural touch functionality. Users can annotate with fingers, write with styluses^, or even erase written content with the palm of their hand – with virtually zero lag.

^Two passive styluses (with 2mm precision tips) are included.

Quickly tile and arrange multiple applications by selecting from predefined templates on the Easy Arrange feature on Dell Display Manager software.

With InGlass™ 20-point touch capability, multiple users can interact with the screen at the same time, for seamless group collaboration.

Touch functionality is compatible with most industry-standard software, such as included FlatFrog.

Built in 2x20W speakers deliver great sound for video and audio playback.

Exclusive to Dell. Inclusive for all.

Dell Screen Drop, the world's first accessibility feature, improves reachability for users working from different heights. Buttons located on either side of the display enable users to lower the displayed images to different height settings so it's within easy reach.

- Great for children and users with disabilities
- Available on C8618QT, C7520QT and C5518QT only

Enables 4 convenient height settings

| 100% | 66% | 50% | 33% |

Impressive screen performance

Keep audiences captivated with brilliant visuals on a 75" screen with 4K resolution. See vivid, consistent colors across the screen from virtually anywhere in the room, thanks to the wide viewing angle enabled by IPS technology.

Crisp, sharp text
Dell monitor technology optimizes fonts while operating everyday programs like Microsoft PowerPoint, Word and Excel – so text appears crisp.

A clearer view
Anti-glare and anti-smudge coatings reduce distracting reflections and fingerprints.

Easy on the eyes
Dell's ComfortView reduces blue light emission to help optimize eye comfort over extended viewing periods.

Lock it down
Prevent accidental shutdown or settings changes with lock mode, a feature that allows IT managers to control the menu and power options.

Simplify IT management
RS232, RJ45 and HDMI CEC connectivity enable IT managers to conveniently control the monitor via network or meeting room control systems.

All-in-one solution
with an optional OptiPlex Micro PC

Seamlessly integrate a Dell OptiPlex Micro PC (sold separately) into the back panel of the display and easily upload your preferred corporate image for an all-in-one display solution that adheres to your company's security and service standards.

- Users can select their own hardware configuration
- Users can use their standard/corporate Windows OS build
- Complies with the user's existing security
- Easy to manage over the network
- Upgradable/replaceable OptiPlex hardware
